

WALLS CONSTRUCTION

QUALITY POLICY STATEMENT

The Company's quality objectives are to complete projects in accordance with the agreed programme, specification and cost, to the highest standards of quality and efficiency whilst ensuring that statutory and regulatory requirements are complied with and Client expectations are met.

The Board of Directors are fully committed to the Quality Management System and its continued improvement, and has assigned responsibility in this regard to the two Construction Directors, who sit on the Main Board, whose duties include ensuring that Management Review meetings are held at regular intervals to review the system's effective operation and development.

The Company's Quality Management System conforms to the requirements of ISO 9001:2008. It is subject to regular examination and assessment by an independent certification authority, which ensures a process of constant evaluation and improvement. This benefits our Clients and how we conduct our business, while enhancing the standing of Walls Construction in the Irish construction industry.

The effectiveness of the Quality Management System depends on a full commitment from all personnel. Management and staff are encouraged and motivated to implement the system as a matter of company priority. Subcontractors are obliged to comply with the system as a condition of appointment.

Eugene O'Shea
Managing Director
